EMSODEV

THE ENDING CONFERENCE

A special event was, as stipulated in the Grant Agreement, a final one-day conference organized in Romania, in Constanta, near the Black Sea, where the EMSO ERIC facility is. On August 26 a national conference took place on the occasion of the finalisation of the EMSODEV project.

National stakeholders were invited, representing academic, institutional and business communities.

During the conference the main results obtained in the EMSODEV project have been presented - with an emphasis on EGIM, but there the results for each work package were detailed.

The agenda of the event was:

09:30-10:00 Reception and registration of participants

10:00-10:15 Opening speech - Vlad Rădulescu, GeoEcoMar project coordinator

10:15-10:45 Presentation of the main results obtained in the EMSODEV project - Mirela Dinicoiu, responsible for communication from GeoEcoMar

11:15-11:45 Technical details and practical utility of the obtained results - emphasis on EGIM - Vlad Rădulescu

11:45-12:15 Communication and dissemination of the results of the EMSODEV project - from theory to practice - Mirela Dinicoiu

12:15-13:00 Conclusions and free discussions on the implementation of the results of the EMSODEV project.

The EMSODEV project (no. 676555) is supported by DG Research and Innovation of the European Commission under the Research Infrastructures Programme of the H2020

European Multidisciplinary Seafloor and water-column Observatory DEVELOPMENT (EMSODEV)

Coordinator: Istituto Nazionale di Geofisica e Vulcanologia (INGV)

Address: Via di Vigna Murata, 605, 00143 Rome (Italy)
